SKILLS SUMMARY

- | | |
|----------------------------|---|
| • Languages: | C, C++, Java, Python |
| • Machine Learning: | Scikit-learn, NumPy, Pandas, Matplotlib |
| • Tools & AI: | Generative AI, No-Code AI Tools. |
| • Soft Skills: | Attention to detail, Collaboration, Critical thinking, Adaptability |

PROJECTS

Crop Disease Prediction System | [GitHub](#) | [Website](#)
Python, Machine Learning, Scikit-learn, Pandas, NumPy

Dec 2025

- Developed a machine learning–based system to predict crop diseases at an early stage, enabling farmers to take timely preventive actions and improve crop health.
- Collected, cleaned, and analyzed agricultural datasets; trained and evaluated classification models using Python and Scikit-learn to identify disease patterns with improved accuracy.
- Demonstrated practical applicability in precision agriculture by supporting early disease detection, reducing potential yield loss, and promoting data-driven farming decisions.

Diabetes Prediction System | [GitHub](#)
Python, NumPy, Pandas, Scikit-learn, Matplotlib

Oct 2025

- Implemented a supervised machine learning system using a Support Vector Machine (SVM) classifier to predict diabetes based on patient health parameters
- Performed end-to-end data processing including dataset analysis, feature standardization using StandardScaler, and stratified train–test splitting to ensure balanced evaluation.
- Built a real-time predictive pipeline that accepts user input, applies consistent preprocessing, and outputs diagnostic predictions, demonstrating practical healthcare analytics application.

TRAINING

Data Structures and Algorithms using Python Training | [CSE Pathshala](#)

Jun 2025 – Jul 2025

- Undertook 35+ hours of live summer training focused on core and advanced Data Structures and Algorithms using Python.
- Implemented and optimized algorithms with emphasis on time and space complexity, strengthening problem-solving and coding efficiency.
- Gained hands-on experience with linked lists, stacks, queues, trees, graphs, and sorting/searching algorithms through practical assignments and coding challenges.

CERTIFICATES

• Oracle Certified Professional – OCI 2025 Certified Generative AI Professional Oracle University	Sep 2025
• Oracle Cloud Infrastructure 2025 AI Foundations Associate Oracle University	Sep 2025
• Build Generative AI Apps and Solutions with No-Code Tools Infosys & Springboard	Aug 2025
• ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM Infosys & Springboard	Jul 2025

ACHIEVEMENT

• Achieved a 5-Star rating on HackerRank in Python, demonstrating strong command over Python programming, problem solving, and algorithmic thinking.	Jan 2026
--	----------

EDUCATION

• Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering</i> CGPA: 7.71	Punjab, India Since Aug 2023
• Bhashyam Junior College <i>Intermediate - PCM</i> Percentage: 92%	Rajahmendravaram, Andhra Pradesh Jun 2021 – Mar 2023
